Isaac E. Pedlow, Esq.,
Renfrew, Ont. Canada.

Good Morning,
Cousin Isaac:

and how did you come out the last election?- or words to that effect. Wife and I listened one night to the ballyhoo by the premiers of the various provinces. It must have been a 'hot' election.

Yesterday I received a letter from a descendant of the Francis clan asking for geneological information. And last night in going over my file I came across your letter telling that James Francis and Henry Pedlow married sisters of the Stuart family- James to Margaret and Henry to Ann. At the time I called attention to the fact that I have numerous proofs that James' wife was named Rachel, and as how this could be reconciled with what you reported. Have you given any thought to this?

Do you know of anyone in Lissacurran who could get us information about our families, and their antecedents?

Had a letter from George Francis but did not receive any new information, except as it referred to his brother and sister, and am trying again.

See what you can do for paragraph 2?

Cordially,

Edgar A. Francis
